

Western Marble & Tile Ltd.
Granite • Marble • Quartz
Tile • Limestone • Slate

Material Approval Form

Please review and sign this form to indicate that you approve the shop drawings and digital renderings (in the case of natural stone only) that have been produced. Your job will not go into fabrication until this has been received by your sales representative.

I have inspected (or have allowed Western Marble & Tile to inspect) the stone and agree that there are no cracks, chips, stains or other deficiencies present at this time.

I am satisfied with the shop drawings produced.

In the case of natural stone, I have reviewed and approve the digital renderings produced.

The materials going into fabrication match the order that I have placed.

I confirm that my job can go into fabrication.

I am responsible for any costs incurred as a result of changes that I make after the job has gone into fabrication.
